FOREVER WOOD

# FOREVER WOOD

Welcome to the wonderful world of wood. Prepare yourself to be enticed by the textures, the colours, the sheer beauty and the possibilities that this amazing natural product has to offer. And be impressed by the innovation that confirms its versatility. Enjoy the warm feeling it gives you every time you see it or touch it. And appreciate its unsurpassed longevity. This is wood in all its glory. This is Forever Wood.

MAFI  
Oak White

## OUR BRANDS

The spirit of Woodos is to bring together the best wood products the world has to offer and tailor them to a large range of applications and budgets.

To that end we've scoured the globe and with our expert knowledge have come up with an offering which we believe covers every need. Brands like the world renowned Mafi or the ever surprising Kebony.

Let us guide you through the fascinating world that is wood and make you fall in love.

Woodos.

## WHY MAFI?

Other than its superb finished look and its natural feel there are a myriad of good reason to choose the world's most desired floor.

**ORIGIN**  
Made in Austria from sustainable forest resources.

**QUALITY**  
Made to order - every board passes through 44 sets of hands.

**CARE FREE**  
No sanding ever - moisturise and treat with every clean.

**CONSTRUCTION**  
Symmetrical 3 layer construction.

**LONGEVITY**  
Stiletto and scratch proof.

**CHOICE**  
13 timber species in multiple colour/grade options.

**FINISHING**  
Naturally oiled and air dried.

**HEALTH**  
Recommended for people with Asthma.

**VERSATILITY**  
Ideal for bathroom and/or underfloor heating.

## CHOOSING MAFI

If you're not overly familiar with wood it can be a daunting task to make the right choice for your project. To that end we've introduced a step-by-step process to guide you in your selection.

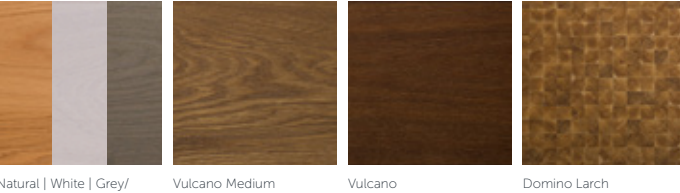

### BY SPECIES

Start by selecting the Mafi timber species that most appeals to you. Of the many to choose from, these are the five types that are most often specified, with Oak by far the most popular choice.

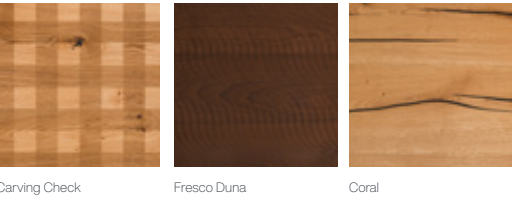

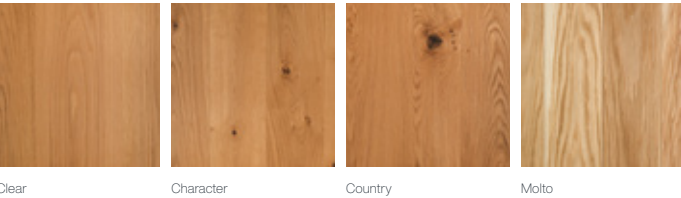

### BY FINISH

Perhaps the hardest decision of all, choosing from the final finished look for your incredible new Mafi floor. These are the most popular choices which never fail to impress and delight their owners.

### BY GRADE

Next decide on your preferred board grade. Mafi always use the whole tree and grade their board in a range of clarities from Clear which is free from any knots through to the more rustic styles of Country and Molto.

### BOARD THICKNESS

The high quality symmetrical 3 layer construction of the Mafi board is available in three thickness levels. Ranging from 10mm to 21mm to accommodate the variation in sub floor structure of every project.

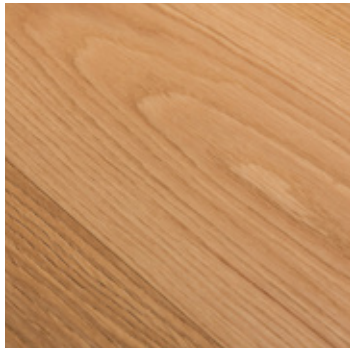

### BOARD WIDTH / LENGTH

Every Mafi board is offered in a variety of widths from 155mm to 300mm and lengths ranging from 1800mm to as long as 5000mm. Choose what works best with the dimensions and aspect of your space.

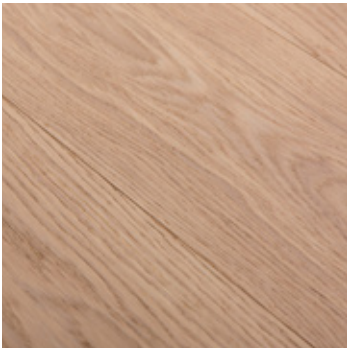

Here we have curated our most in demand Mafi floors. Oak features strongly in natural light finishes through to darker Vulcano and Nero styles.

WHY BJELIN?

There is nothing quite like Bjelin floors. No, really. They're so innovative and revolutionary they have created a whole new category of floors — we call it Hardened Wood Flooring. The unmistakable feel and luxury of a real wood floor combined with next-level durability and waterproofness.

100% REAL WOOD

Every impact resistant plank is designed by nature.

IMPACT RESISTANCE

Three times stronger than traditional engineered wood floors.

WATERPROOF & WORRY-FREE

5G® Dry™ waterproof technology with high moisture resistance.

XXL PLANK DIMENSIONS

Unparalleled performance and aesthetics in larger formats.

FSC CERTIFIED

Made with raw materials from responsibly managed forests.

FLOOR & WALL

Floors this amazing should be admired from every angle.

woodura®

PATENTED SURFACE TECHNOLOGY

REAL WOOD BUT STRONGER

The patented Woodura® surface technology is based on fusing a thin sheet of wood with a Composithek® core through a powder mix layer. The powder mix perfectly fills up the natural openings of the wood and enhances the wood appearance. It also eliminates the need for wood-filler and creates a significantly stronger surface with a hardness three times greater than a traditional solid wood floor.

The Woodura® surface technology enables ten times more flooring to be produced from the same amount of lumber compared to traditional engineered wood flooring.

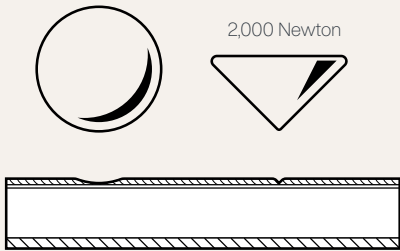

PRODUCT DESIGN

- 1. UV acrylic top coat (hardwax oil on request)
- 2. Natural wood covering
- 3. Wood-based powder layer
- 4. Välinge Composithek® core
- 5. Wood-based powder layer
- 6. Wood backing layer

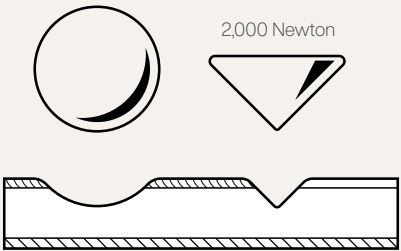

HIGHER IMPACT RESISTANCE

Woodura® surface technology increases the impact resistance of wood flooring, making it three times stronger. Outperforming traditional solid and engineered wood floors.

Bjelin wood flooring with Woodura®

Traditional solid & engineered wood floor

A SIMPLE CLICK AWAY

No gluing or nailing is required. All you need to install the floor panels is one person, one pair of hands and a single movement. And, if ever needed, it's just as easy to dismantle.

With 5G® you can significantly reduce installation time, no matter if you are a professional or DIY.

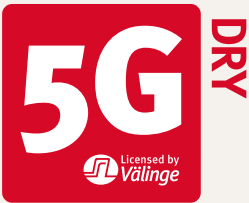

EASY TO INSTALL WITH 5G® FOLD DOWN

The 5G® locking systems are optimised for Välinge wood flooring. When the panel is folded down, a flexible plastic tongue is pushed into a tongue-groove. As the wood panel reaches its final position, the tongue snaps out into a wedge groove, emitting a "click" sound, locking the panels together.

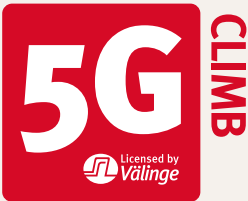

# BJELIN

### WATERPROOF & WORRY-FREE

5G® Dry™ is a fold down installation system that provides enhanced water-resistance by preventing water from penetrating into the joints of Bjelin wood flooring. With greater protection to withstand the mess of everyday chaos, this makes floors easy to live with. In wood-based floorings, 5G® Dry™ contributes to significantly lower edge swelling, ensuring the floor looks and feels better despite being subjected to wet incidents resulting from everyday use.

### MAKE YOUR FLOORS CLIMB UP THE WALLS

5G® Climb™ is revolutionary technology for wall mounting, based on our proven 5G® installation systems used in flooring. Use the panels as studs and simply click the wall panels in place horizontally, vertically or in herringbone pattern. The possibilities are endless, and we think floors this amazing should be admired from every angle.

# BJELIN

## CHOOSING BJELIN

Invented in Sweden, Bjelin Hardened Wood Flooring is a greener, smarter, more efficient way to make a real wood floor. Stress-free installation, highly waterproof, incredible impact protection, modern extra large dimensions — it's a real wood floor, made wonderful.

### BY SPECIES

Choose from either oak, ash, or walnut, there's something for every build. The wood used comes from responsibly managed forests, a sustainable way to harvest and produce wood that ensures the forest will be there to enjoy for generations to come.

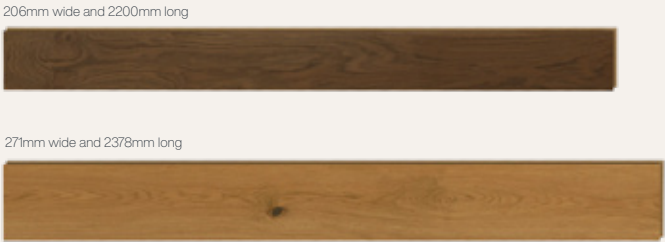

### BY GRADE

Next decide on your preferred board grade. Choose from Select which is free from any knots through to the more rustic style of Nature.

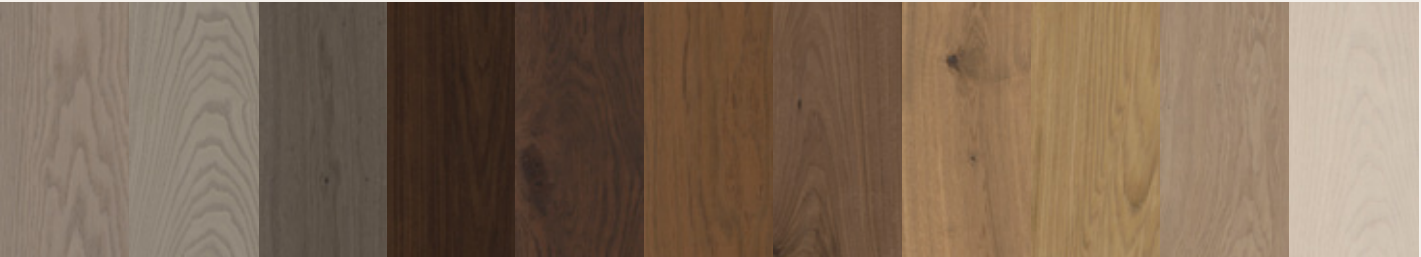

### BY WIDTH AND LENGTH

Choose up to 271mm wide and 2378mm long, unparalleled in performance, aesthetics and pricing in the large format category.

### BY FINISH

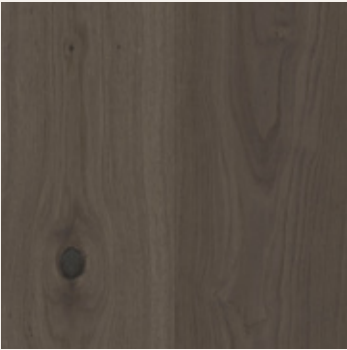

Our carefully curated collection is for you, we think it reflects our philosophy perfectly, taking quality materials into new and creative realms.

DOPPIO  
Diamante Character Natural Oil

WHY DOPPIO?

Doppio is made exclusively from the highest quality European Oak using a multilayered construction that offers an exceptional finish, affordable for projects of all sizes.

QUALITY  
Highest quality  
natural oak timber.

CONSTRUCTION  
Multilayered construction  
made to last.

FINISHING  
Ten coats of natural UV oils  
or lacquered option.

CHOOSING DOPPIO

The Doppio range is designed to be simple to understand and easy to choose, with our step-by step process guiding you through the choice of colours, board grade and widths.

BY COLOUR

Start by choosing one of eighteen colours, ranging from lighter natural colours in white and grey oil finishes through to the dramatic darker tones.

BY GRADE

Next select you preferred board grade. Clear has a simple grain and little or no knots whilst Character provides a high level of knots and natural wood features.

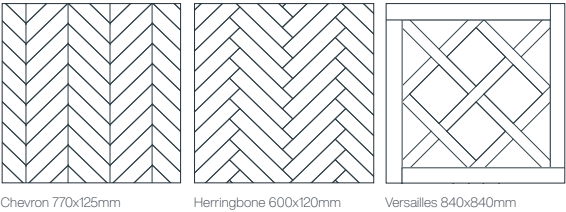

BOARD WIDTH

Doppio multilayered boards are available in five different widths, ranging from 140mm to 290mm. Choose what works best with the dimensions and aspect of your space.

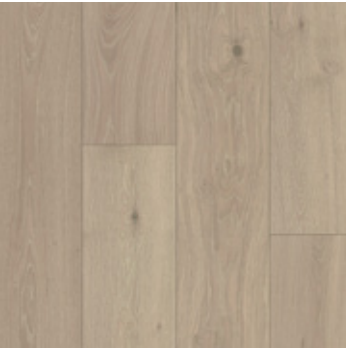

PARQUETRY

Doppio boards are ideal if you are wanting to create a Chevron, Herringbone or Versailles patterned floor. With the choice of colours and grades, the finished look is limitless.

Woodos Flooring engineered boards are made in Europe from highest quality European Oak and finished in Australia. Using a multilayered construction they produce an exceptional finish, bringing a luxurious feel to any project. The perfect choice for open living with underfloor heating.

## WHY WOODOS?

### LUXURY

The statement elegance of engineered boards.

### CHOICE

Three grades, two surfaces and unlimited colours.

### IN STOCK

Why wait? We have stock ready now.

### QUALITY

Highest quality European Oak.

### HEATING

Guaranteed over underfloor heating.

### FINISHING

Finished in Australia using natural plant based oils.

## CHOOSING WOODOS FLOORING

Woodos high quality engineered boards are in stock and available now. Below our step-by-step process will guide you through board grades, surfaces and the unlimited choice of colour finishes.

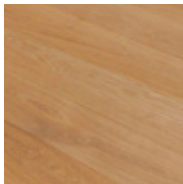

### SELECT YOUR GRADE

Choose from three board grades:

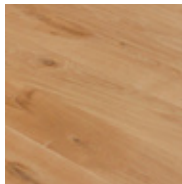

**Select** - our premium grade with little or no variation.

**Classic** - our character grade with natural wood features.

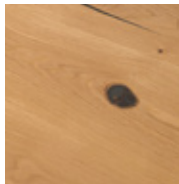

**Vintage** - our rustic grade with the highest level of natural features.

Select

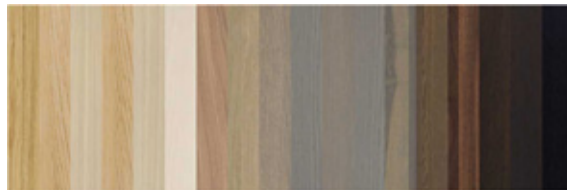

Classic

Vintage / Country

### SELECT YOUR COLOUR

Choose from an unlimited range of custom colours, from lighter natural colours in white and grey oil finishes through to the dramatic darker tones.

Natural

White

Grey

Arabica

### BOARD WIDTH

Woodos boards are 90mm, 190mm or 240mm and 300mm wide, also available in herringbone and chevron patterns.

### BOARD STRUCTURE

Woodos boards are constructed with a 2-6mm premium European Oak top layer and an 8-14mm Plywood base.

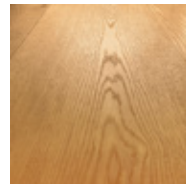

### SELECT YOUR SURFACE FINISH

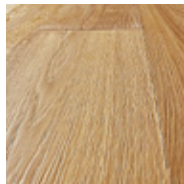

Choose between two standard surface finishes:

**Brushed** - a silky natural surface with an organic feel.

**Fortified** - for a heavily textured aged look.

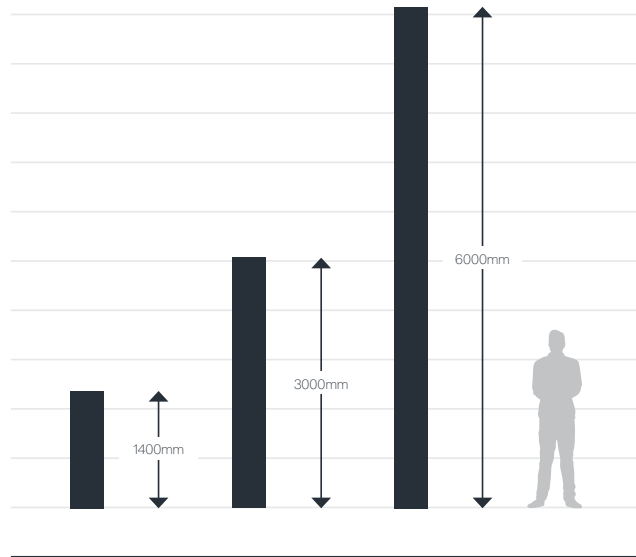

Brushed

Fortified

### BOARD LENGTH

Woodos multilayered boards are available now and offered in a range of lengths from 1000mm through to 3000mm and up to 6000mm on request. Choose what works best with the dimensions and aspect of your space.

31 x 65mm

39 x 80mm

51 x 100mm

Natural Oak

Prefinished Natural Oak

Prefinished Ivory Oak

### SELECT YOUR SURFACE FINISH

Choose between two standard surface finishes:

**Untreated Natural Oak**  
The "Woodos Wood Slats" are supplied with sanded real wood veneered surface. This allows you to finish them immediately to your own liking using oil, stain or lacquer to make them fit perfectly into the project, along with the rest of the furniture.

Can be combined with Querkus panels.

**Ready-To-Use Stained and Lacquered Natural & Ivory Oak**  
Prefinished slats, ready-to-use, which do not need any more after-treatment. That saves you even more time during installation!

Other colours or wood type can already be made to order from 150 identical pieces!

WHY WOODOS WALL PLANKS?

Woodos Wall Planks are oak veneered and pre-profiled boards for decorative wall coverings. This paneling, which is easy to assemble, has a unique tongue and groove connection where the boards can be nailed invisibly. In addition, a recess is provided for fixing the boards using a simple metal clip. This makes the installation easy and fast. Woodos Wall Planks are therefore the perfect solution to easily integrate wood into any interior.

EASY INSTALLATION

Unique tongue-and-groove mechanism for easy installation.

SIX DIFFERENT SIZES

A variety of Woodos Wall Planks for any commercial space.

UNTREATED OR VARNISHED

Use natural veneer or ready-to-use treated veneers for your next project.

FLAME RESISTANCE

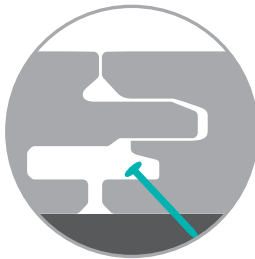

Compatible to combine with MDF fire retardant.

QUERKUS COMPATIBLE

Untreated Woodos Wall Slats can be combined with Querkus panels.

INVISIBLE INSTALLATION

The unique fastback concealed profile for blind nailing allows you to invisibly fix the planks to an underlying structure. The boards can be put together from both left and the right side. Also on the short side there is a profiling through which the planks can be mounted randomly.

Nail installation  
option 1

Nail installation  
option 2

Mount installation

CHOOSING WOODOS WALL PLANKS

Crafted from high-quality oak veneer, these pre-profiled boards are specifically designed for stunning decorative wall coverings.

**SELECT YOUR SIZE**  
Choose between six plank sizes:

- Dimensions:
- 13 x 124 x 3030mm

- 13 x 166 x 3030mm

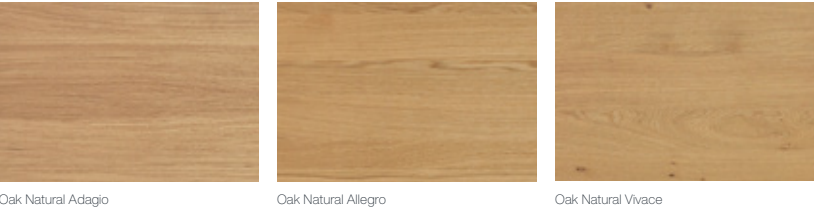

- 13 x 190 x 3030mm
- 13 x 124 x 1500mm

- 13 x 166 x 1500mm

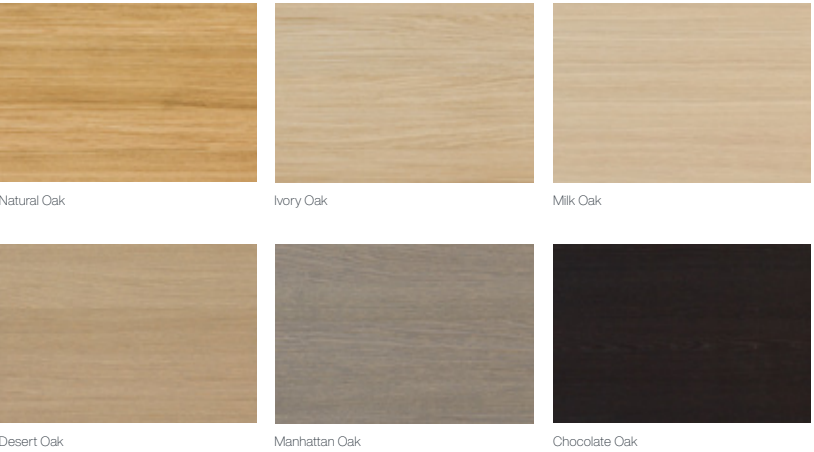

- 13 x 190 x 1500mm

**SELECT YOUR SURFACE FINISH**  
Choose between two standard surface finishes:

**Unfinished (Natural)**  
Can be combined with Querkus Oak Natural look. Other wood species available on request.

**Prefinished (Stain + Lacquer)**  
Prefinished planks, ready-to-use, which do not need any more after-treatment. That saves you even more time during installation!

WHY WOODOS VINTAGE?

Woodos VIntage was established thanks to a passion for old materials and their authentic charm, particularly vintage hardwood flooring that bears centuries' worth of history and its incomparable patina, a product that replicate the appearance of wood flooring that has stood the test of time.

NO SYNTHETIC COLOURS

Reactive processes based only on the oxidation of the tannins in the oak.

ECOLOGICAL

Sourced only from sustainably managed Belgian and French forests.

FRENCH OAK

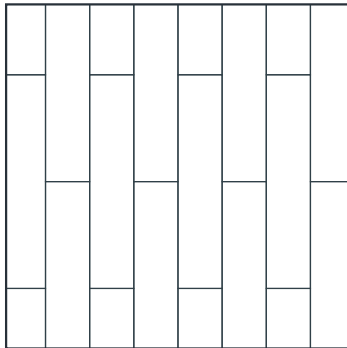

Undisputed specialist in the manufacturing aged French Oak.

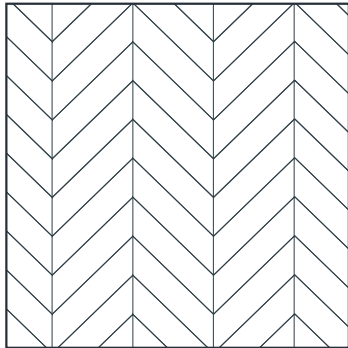

## CHOOSING WOODOS VINTAGE

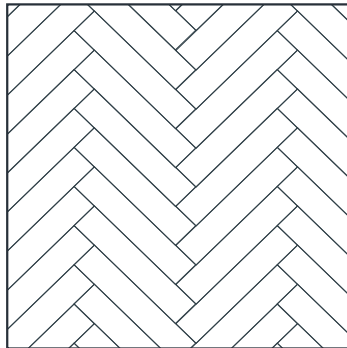

All our ranges of French oak floors are available in solid wood and semi solid versions (laminated, suitable for underfloor heating systems). The width of our boards ranges between 9 cm and 30 cm, with lengths up to 3 m. When laid, this balanced alternation of widths gives a feeling of great warmth. Whether in an understated contemporary loft or in a period residence, Arbony floors will adapt to all atmospheres and all styles of interior design, always preserving the harmony of the space.

Wall Cladding

## WOODOS VINTAGE PLANKS

Vintage wooden floors are best characterised by the extraordinary patina that it develops over time. Just like fine wine, hardwood flooring naturally oxidises and takes on the most exquisite shades.

## WOODOS VINTAGE CHEVRON

Woodos offers three different vintage parquet flooring styles: Versailles Parquet, Chevron Parquet and Herringbone Parquet.

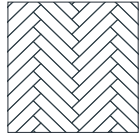

WOODOS VINTAGE  
Bordeaux Dark Grey

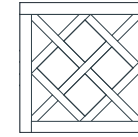

WOODOS VINTAGE  
Alsace Light Brown Washed Out

## WOODOS VINTAGE HERRINGBONE

Parquet flooring first appeared in the 17th century. It is distinguished from regular hardwood flooring by the patterns formed by the assembly of small wooden slats.

## WOODOS VINTAGE VERSAILLES

The reason why vintage parquet floor inspires us, and why it is so pleasant to live with and look at, is because it re-establishes this link between the past and the present.

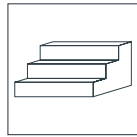

WOODOS VINTAGE  
Boardeaux Dark Grey

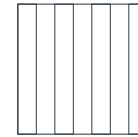

WOODOS VINTAGE

## WHY KEBONY?

Kebony is a truly unique decking and cladding product developed in Norway. Kebony technology dramatically improves the stability, durability and hardness of natural softwood.

**REAL WOOD**  
with enhanced and strengthened cell structure.

**MAINTENANCE FREE**  
no additional treatment needed ever.

**STABILITY /HARDNESS**  
Stable, hard and durable finish.

**HIGHLY RESISTANT**  
against fungi, rot and other wood destroying micro-organisms.

**GUARANTEED LONG LIFE**  
outdoor life time warranty for 30 years.

**SAFE AND TOXIN FREE**  
no toxins or harmful impregnation substances.

## CHOOSING KEBONY

When you're ready to choose a Kebony deck or cladding there are two options. Kebony Character displays the natural knots of the wood whilst Kebony Clear is free of any markings. It's a looks thing.

### KEBONY CHARACTER

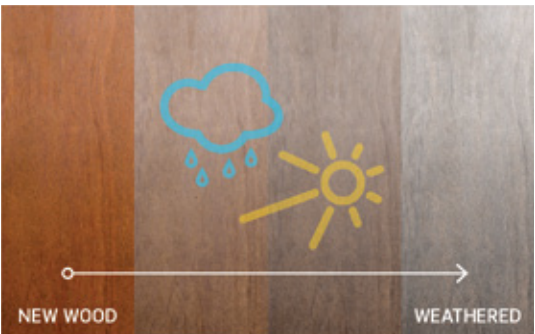

Kebony Character products are produced from FSC® Certified Pinus Sylvestris and contain knots and untreated heartwood. They have a deep brown colour that will turn to a silver-grey patina over time. The speed of the greying process depends on the intensity of exposure to the sun and rain and the application.

### APPLICATION

### KEBONY CLEAR

Kebony Clear products are produced from FSC® Certified Pinus Radiata and have a clear surface with no knots and are treated throughout the board. They have a deep brown colour that will turn to a silver-grey patina over time. The speed of the greying process depends on the intensity of exposure to the sun and rain and the application.

### TECHNOLOGY

Kebony's performance has been proven in a variety of applications including decking and cladding and comes with a 30 year warranty against rot and decay.

## WHY QUERKUS?

The most beautiful and decorative oak veneer panels that enable you to transform your most creative ideas into sensational interiors.

### EUROPEAN

Years of experience working with classic European Oak.

### AUTHENTIC

Retains the natural character of the original timber.

### SUSTAINABLE

Uses both plantation and recycled oak in the veneers.

### QUALITY

Minimise impact on the environment by extending the veneer lifecycle.

### UNIQUE

The character of European Oak will give your project its own look and feel.

### VERSATILE

There's no application where veneer couldn't be made to work.

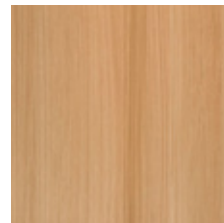

QUERKUS  
Retro Baltimore

## CHOOSING QUERKUS

There's a simple two step process to choosing a Querkus veneer finish. Choose the look you're after from our wide range of colourways and styles. Then simply choose the composition that suits your application.

### NATURAL

### JOINING TECHNIQUE

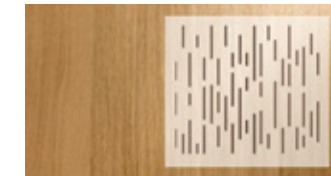

Strips of veneer from different trees are combined to give Querkus panels an extra solid wood look thanks to this 'mixmatch' joining technique. The panels differ from each other yet still fit beautifully together, just like solid oak panels.

Mixmatched

### FINISH

Each Querkus panel is given a subtle and light brush treatment that enhances the natural wood structure and allows you to feel the authenticity of the product straight away.

Brushed B1

### COMPOSITION

#### PANELS

The most popular of our products consist of an MDF 'carrier' with a top sheet of your chosen veneer and a backsheet for stability.

#### FLEX

This product is ideal for curved and bent surfaces as the timber fibres are broken up as part of a transfer process for easy manipulation.

#### EDGE BANDING

For every Querkus colourway and look there's a matching edge banding allowing every project to be finished to the highest level of detail.

Every Querkus panel is unique. From the enduring beauty of Natural Oak through to the spirited Vintage, Retro, Intense and Smoked looks.

QUERKUS  
**Oak Natural** Adagio

QUERKUS  
**Oak Natural** Vivace

QUERKUS  
**Oak Vintage** Hoboken

QUERKUS  
**Oak Vintage** Baltimore

QUERKUS

QUERKUS  
**Oak Retro** Harlem

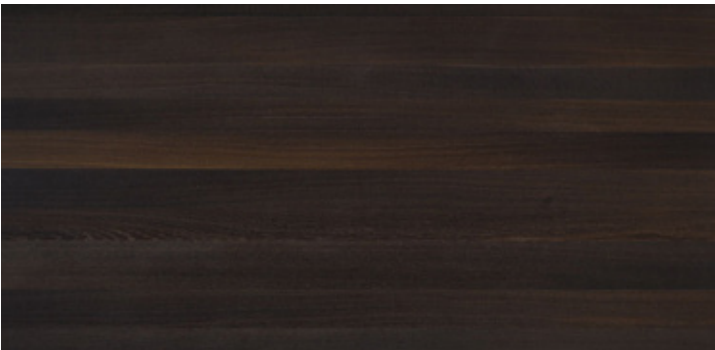

QUERKUS  
**Oak Retro** Hoboken

QUERKUS  
**Oak Smoked** Arabica

QUERKUS  
**Oak Retro** Baltimore

QUERKUS  
**Oak Smoked** Robusta

Nordus veneers instantly give any room that Nordic, modernist feel. This simple collection of two Larch veneers has a real architectural integrity that can be effortlessly integrated into any interior.

NORDUS  
Spring Larch White

The limed look of Spring Larch White really makes a statement and gives the room that crisp Scandinavian feel.

NORDUS  
Autumn Larch

A very now modernist feeling is what Autumn Larch exudes in spades. It says Mid century and it says it in an elegant accent.

WHY IXORA?

Ixora prefinished wood veneered panels are ready-to-use, as easy to work with as a melamine board.

EUROPEAN

Prefinished wood veneer panels made using European timber.

AUTHENTIC

Unique look and feel typical of real wood veneer.

SUSTAINABLE

From FSC® Certified well managed forest resources.

QUALITY

Consistency of colour and grade guaranteed.

UNIQUE

Wide range of trend driven colourways.

VERSATILE

Immediately available from stock.

CHOOSING IXORA

There is almost no limit to the ways Ixora can be used - from kitchens to wardrobes in the home market, and from offices to bars or restaurant furnishings in the project market.

VENEER GRADING

By combining wood veneer from different trees and with varying slicing techniques, Ixora offers continuous surfaces without optical interruptions. The result is a uniform quality without compromising on the vibrant aspect of wood.

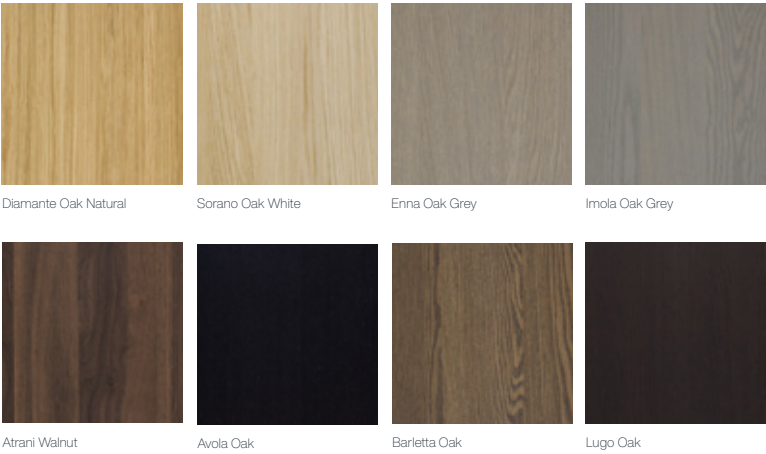

INDOOR AIR QUALITY

Ixora complies with the strictest requirements for indoor air quality (formaldehyde emissions). The glues, stains and varnishes that we use to make Ixora do not contain ureaformaldehyd or other harmful VOCs (volatile organic compounds).

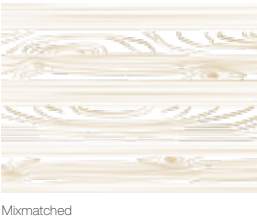

BY COLOUR

Any one of the collection of eight Ixora colours is ready-to-use without the need for further finishing. For all designs edge finishing is also available, both in veneer as well as in ABS.

JOINING TECHNIQUE

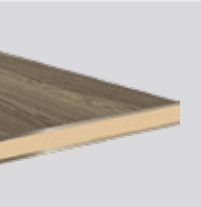

Using a proprietary "mixmatch" technique and with years of experience in product finishing, Ixora panels guarantee a continuous look without significant visual interruptions and colour consistency throughout your entire project.

COMPOSITION

Ixora a complete program including matching panels, veneers and edge banding all quickly available from stock in choice of on-trend colours.

PANELS

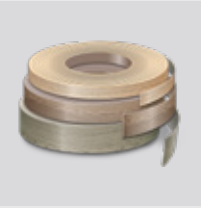

Ixora prefinished panels are made up of a top layer of veneer, an 18 mm (11/16") MDF core and a balance layer on the back for stability.

FLEX

Ixora prefinished veneered laminates are made up of stained and lacquered real wood veneers laminated to a paper impregnated with a phenolic resin.

EDGE BANDING

For seamless edge finishing, you can rely on the Ixora range of prefinished edge bandings in various colours and styles. There are both ABS strips and veneer strips available.

From lighter natural tones through to the most exquisite darker shades the Ixora collection has something to suit every taste.
