mafi Naturholzboden GmbH
100% sustainable - FSC® certified on demand

mafi floors are on principle made out of sustainable material cut down in sustainable forests. This is part of mafi's philosophy and will not be retracted.

As some of our small and local suppliers do not want to or are not able to get certified by FSC® mafi cannot always deliver 100% certified FSC® wood even if mafi knows, that all partners and suppliers are thinking the same green way that mafi does.

In Austria law guarantees sustainability in forestry since more than 150 years.

For all our customers and partners who want to be sure and want to have 100% FSC® certified mafi floors, mafi can offer special conditions with FSC® certified wood on demand. Please ask for delivery and payment conditions.
